# WALL MOUNTED SLIMLINE SERIES

500mm SLIMLINE Series Wall Mounted Cabinets

The Product Line is designed for small network infrastructure needs such as small offices and home offices. Thanks to its decorative design, it is suitable for applications that take up little space on the wall in all infrastructures such as hotels, hospitals, and laboratories.

Mostly customers complain about the space occupied by Wall-mounted deep wall-mounted cabinets in network applications. Generally, such complained locations are hotel lobbies, small office infrastructures, hospitals or elite offices. Eliminating this problem, SLIMLINE cabinets offer comfort to users with their 165mm depth on the wall.
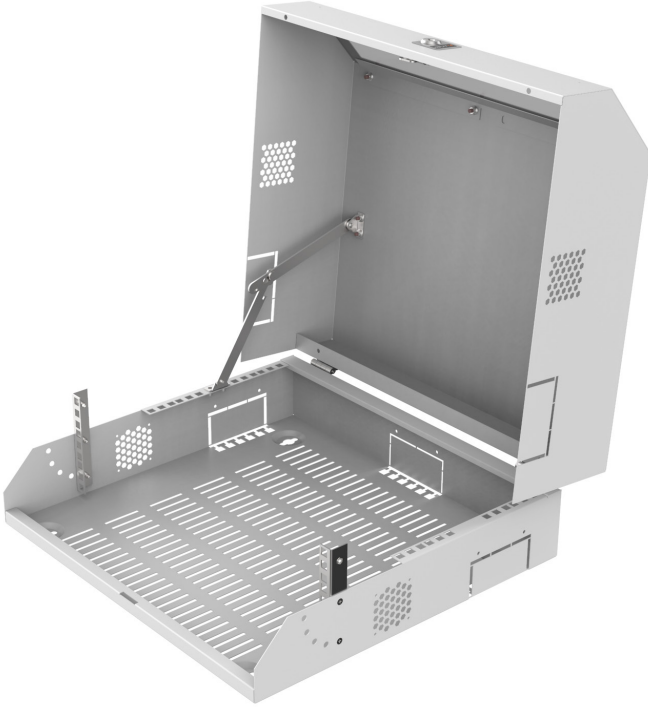

Product Dimensions are W:500mm D:475mm H:165mm

SLIMLINE offers the possibility of use in a lowered ceiling, in a 600x600mm raised floor, or on or under a tabletop.

Please contact the authorized person for your requests in different sizes.

The front cover is hinged type and can be opened to the right, left, up or down, depending on the way the product is mounted on the wall or in the relevant location.
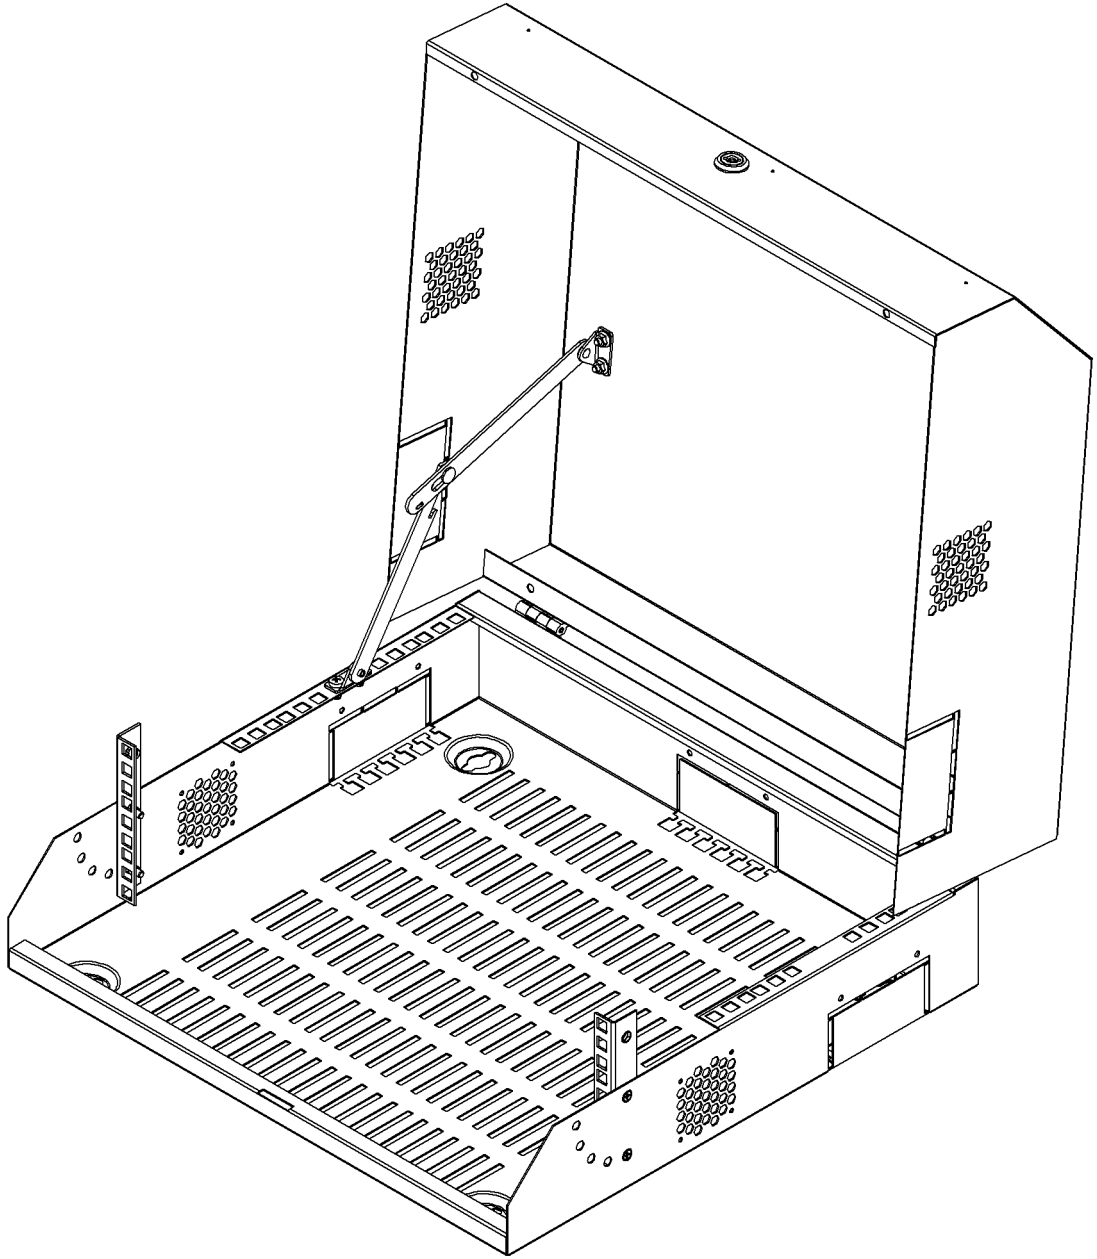

Material
• 1 mm DKP

IP Classification
